Crack-Up Inside Germany Possible At Any Time

—Halifax

Washington, Nov. 1. (CP)—The United States was cheered by the first definite word from a ranking United Nations diplomat that an internal crack-up in Germany may come at any time.

Speaking more openly than any United States leader has to date, Lord Halifax, British Ambassador to the United States, reached a point where "anything may happen."

But he went on to say that the war in Europe has reached a point where "anything may happen."

Canada Consulted And in Full Accord With Decisions

Ottawa, Nov. 2 (CP)—Canada was consulted about the terms of the four-power declaration on general security issued after the Moscow conference and the government is today in accord with its provisions.

Prime Minister Mackenzie King said Monday in a brief statement: "The Prime Minister, who received day-after-day reports on the meeting of British, United States, Chinese and Russian representatives and knew of the terms of the declaration before it was made public, said he welcomed it 'most warmly'."

It meant, he said, that the continuance of the wartime co-operation of the United Nations and that the larger states among them are agreed to devote means of ending the blight of war and establishing freedom from fear.

The text of Mr. King's statement: "I welcome this announcement most warmly. It makes clear the determination of the British, Soviet, United States and Chinese governments that their wartime co-operation will continue, not only until victory has been achieved but indefinitely thereafter, within a general international organization which will be open to membership by all peace-loving states."

The declaration brings the assurance that the largest powers among the United Nations are pledged to a joint endeavor to devise, in concert with other countries, effective means of ending the blight of war and establishing freedom from fear throughout the terms of the four-power declaration and is fully in accord with its provisions.

In governmental circles here the declaration is considered one of the most important developments, ranking with the Atlantic Charter.

It is a very further United Nations agreement on the post-war world and with decisions reached at the Potsdam and Quebec conferences of President Roosevelt and Prime Minister Churchill in defining and defining the course to be followed while the war continues.

First Announcement
The new conference was the first major assignment of L. Deane Williams, Canada's first minister to Soviet Russia. His dispatches head the information given him in accordance with the policy of keeping the governments of the United Nations informed, gave the Canadian government a knowledge of what was happening at the meetings. The declaration today of the declaration came as no surprise to Prime Minister Mackenzie King and his officials in the department of External Affairs.

Russia's participation in the conference reached to the conference is regarded here as bringing the country more definitely into the orbit of western powers than previous action and marking an important step in the realization of mutual confidence among the Soviet government and the western democracies.

Paratrooper Lives After 700-Ft. Fall At 50 P.M. H. Rate

Hamilton, Nov. 1 (CP)—Mr. and Mrs. P. W. Robson of Toronto, Ont., today said they believe the story of a student paratrooper who survived a 700-foot fall after his parachute failed to open during training operations in England.

Robson's son, P. W. Robson, reported the incident said the student's parachute failed to open when the soldier jumped and he plummeted to earth 200 miles an hour, landing on one foot, preventing him from falling further.

"I'll tell you one thing," says Squadron Leader Charles Stuart Dowie, D.F.C., Bar—

"We can't win this war with an even balance of power—it must be a decisive superiority. The more support, the shorter the war!"

"The better we're backed up by the folks back home—the better we fight!"

SETTING THE PACE FOR VICTORY

Squadron Leader DOWIE knows what he's talking about! Fifty flights over enemy territory taught him. He knows you can't stop at being just as good as the other man—you've got to be better and have more of everything!

He knows the Jerries are tough! Once they nearly got him when he visited Hamburg in a death-dealing Wellington! It was a close call—but those Canadians did what they set out to do... released a surprise packet of bursting bombs right where it hurt! Jerry must—on one of his precious war factories.

Then they streaked for home... if you can call it streaking... peppered with flak—the bomb drops hanging open... flaps sagging... and the hydraulic system knocked out! You lose a lot of height quick in a jam like that—and bucking a strong west wind doesn't help much! But they made it safely—with less than ten minutes' gas to spare. That's war as they know it... split-second decisions... nerves tensed to give you every advantage in combat.

to trigger quickness... brains alert to death and danger: That's their job—tackled in the true Canadian spirit! Tackled by boys from prairie farms... from northern bushlands... from peaceful Canadian seacoasts... from little towns that have borne and bred men with the spirit of Squadron Leader Dowie.

They're fighting this war—and they know what's needed! When they ask for more planes, more equipment, more guns—there's only one answer... "More of everything on its way!"

We can do it—we're Canadians too! It means more and more work... greater self-denial... MORE VICTORY BONDS!

Show these boys we're in there fighting with them... they're putting everything they've got into this war... put everything you've got into VICTORY BONDS.

For it's VICTORY BONDS that will deliver the goods... it's VICTORY BONDS that will shorten the war.

"I jumped and cleared the place O.K. but was caught upside down with my feet up in the line. I got some of that and looked up and my chute had collapsed... At that moment, I came face to face with death because I realized what was going to happen... About a million things went through my mind then. Well, I hit and it felt as though I had been put in a fire right up to my nose... They got me into the medical unit and gave me a shot in the arm. It took no effect so they gave me gas and put splints on my legs... Then they brought me to the hospital... They had both my legs in casts; the right leg had one to my chest and the left one to my hip. Things weren't very clear for a couple of days... but I gladly came around and told them what I had done... broke both feet, compound fracture of my left leg, and a broken back... so I didn't come out too bad after all."

Lowest lake report: Moderate to heavy rain, with a possibility of snow and ice on Thursday.

Massico Ridge Near West Coast In Allied Hands

8th Army Pushes Forward Across Trigno River on Adriatic Flank

WITHDRAWAL EXPECTED

By NOLAN MORGANLAND
Associated Press. Rome, Nov. 3. (AP)—British troops of the Alpine Air Army captured the heights of Massico Ridge, western sector of the German line in Italy, and nearby Mount San Croce in full complete observation over the local Chianella River Valley, headquarters said.

The demand was made in a press conference by two pre-Communist Italian officials. The officials said the French people recognize the Italian government and the Italian people are ready to accept the Italian government. The officials said the French people recognize the Italian government and the Italian people are ready to accept the Italian government.

British and Canadian warbirds over the Adriatic, believed to have established a new bridgehead over the Trigno river on the Adriatic flank. This new crossing was an indication that the Allies were preparing to launch a new offensive against the German line.

Chianella's dispatch did not mention the Canadian troops in this new advance, but London's dispatches indicated that the Canadian troops were also involved in the advance.

From Three Armies. The British army, the Canadian army, and the American army were all involved in the advance. The British army was the main force, with the Canadian army and the American army providing support.

Sequestered Smashing Daylight Assault on Wilhelmshaven

Canuck Airmen Lead Largest Weight of Bombs to Germany Formed

19 BOMBERS LOST

(By PORTER BANCART, (Continued from Staff Writer)

London, Nov. 4. (CP) Cable—The strongest force of heavy Canadian bombers ever in operation from British bases went out with the R.A.F. last night to attack new destruction in battered Denmark and Germany.

The great raids came as a swift reply to the smashing daylight attack on Wilhelmshaven by the R.A.F. and the American bombers thrown against the beach.

The Canadian effort included several squadrons of the Lancaster and Liberator bombers, dropping tons of bombs under the R.A.F. bomber group was formed at the start of the war, Canadian Mosquitoes were sent to attack targets over northern France.

Of the 30 bombers missing from the night's operations, four were Canadian.

The main blow was concentrated on Wilhelmshaven, making that city's armament depot probably the most heavily hit in Germany. Bombs were dropped on the city itself, on the harbor, and on the railroads. The main force of bombers was made up of Canadian Lancasters and Liberators, with a few American B-24s and B-29s.

German Forces Moving Into Southern France

Marseilles, Nov. 4. (AP)—Reports of the movement of strong German forces into southern France this week and subsequent defense preparations being taken along the Rhine have every indication of being based on an Allied offensive against southern France in the immediate future.

These preparations are on such a scale that the Hitler's coastal mobile force has been ordered to transfer traffic between Marseilles and Bordeaux and the German labor corps has been moving troops against the Rhine.

These reports are being received from the German press reports that the movement of German troops into southern France is on a general scale and that the German army is being moved into the area as far inland as Arnhem and Cologne.

Conditions Inside Germany Worse Than 25 Years Ago Life Threatened Several Times Says Accused

Berlin, Nov. 4.—(AP)—The Berlin correspondent today told of the conditions inside Germany were "worse than 25 years ago" and said the cumulative effect of food and fuel was having a vital effect on German morale.

Each million bombed-out of civilian population, approximately one-tenth of the population is the price of the destruction and displacement, which is the result of the cumulative effect of the bombing.

The weekly demand that "every German must increase his production by three times or ten times of those of 1914."

Since a previous visit to Germany weeks ago, after the article declared, "The people of the people of Berlin, like the people of the rest of the world, are suffering the result of the cumulative effect of the bombing."

COLUMB OF THREE'S

Kingston, (Special.)—Major Ed. Wain, Deputy Assistant Provost Marshal of Military District No. 2, is the man who heads the Canadian Provost Corps in this District. Former Chief Constable of Niagara, Ontario, Major Wain is in the "hot hand" in the Kitchener, in keeping good order and military discipline with the men of the Canadian Army who are on leave or furlough in M.D. No. 2.

No. 2 Company, Canadian Provost Corps, under the command of Major F. Gray with headquarters in Ottawa, is under the supervision of Major Wain, as well as Military Detachment Barracks at Burlington.

The duties of Provost personnel are many and are a 24-hour-a-day job. Among the varied duties which involve No. 2, Co. Prov. are called upon to be the patrolling, of streets and railways throughout the district; stationing, patrolling, apprehending of absconders. They are also called upon from time to time for secret duty as prisoners of war on arrival in Canada, until they are placed at the destination. Internment Camp.

The duty of a Provost is not at all menial. It is a job which many people believe to be a simple one, but to those who do it, it is a job which is not only a source of pride but also a source of responsibility. They are called upon to be the eyes and ears of the military at all times. They are called upon to be the eyes and ears of the military at all times. They are called upon to be the eyes and ears of the military at all times.

Says Germans Knew From The Start That They Could Not Win

By Julius Epstein in The New York Sun

Since the very beginning of the Nazi rule the German elite has been aware of two things: that National Socialism would inevitably lead to war, and that Germany could not win this war. This may seem strange, but it is only common sense. The German elite has been aware of these things since the very beginning of the Nazi rule.

The German elite has been aware of these things since the very beginning of the Nazi rule. They have known that they could not win this war. They have known that they could not win this war. They have known that they could not win this war.

They have known that they could not win this war. They have known that they could not win this war. They have known that they could not win this war. They have known that they could not win this war.

To the Men and Women of the...
CORBIN LOCK COMPANY OF CANADA, LIMITED
and
STEPHENS-ADAMSON MANUFACTURING CO. OF CANADA LIMITED

Congratulations
on a 190% Victory Bond Subscription

THE urgent need of a Speedy Victory is fully realized by the men and women on the Production Front at home.

Canada's great record of accomplishment in providing the implements of war is known on every United Nations front.

But the artisans of Canada do not stop there. Wherever and whenever the opportunity arises to put their money into investments that provide for more and more active support of the land, sea and air forces — they do it with a will and an enthusiasm that creates new records of achievement.

Here's how the men and women of two Belleville companies—the Corbin Lock Company of Canada, Limited, and the Stephens-Adamson Mfg. Company of Canada, Limited, went over the top in the Fifth Victory Loan.

- In less than 36 hours the employees of both organizations had bought over 100% of their quota.
- They have since increased this figure to 190% of their quota.
- They have earned the right for the companies to fly the "V" Flag with three Stars—given only to those companies whose employees subscribe at least 15% of the aggregate payroll to Victory Bonds and War Savings Certificates—and contributed by more than 90% of the employees.
- All this has been accomplished by the men and women of the respective companies as their own contribution exclusively. (See Special Note.)

For this splendid achievement the management wish to publicly express their thanks to the men and women of their own and each other's organizations. Congratulations on a job well done!

SPECIAL NOTE:

The purchases of Victory Bonds referred to above, are employee subscriptions ONLY. They are NOT incentive purchases — amounting to approximately \$70,000 — made by the companies themselves.

Little Benny's Note Book

Pop started to leave for his office this morning, saying to me, Oh by the way, Miss Zedler is in town and it looks as if I'll have to bring him home with me for dinner tonight.

Now William I swore I'd never have that man in my house. For another week, he said. The last time you brought him home made the most perfectly arranged chicken (partridge) of her entire career and that Zedler man deliberately sat there and stared and saw our entire peaceful life. A miniature townroom in the Alps without him.

IN MEMORIAM

CONNORS — In loving memory of my dear husband, William Isaac Connors, who passed away November 6th., 1939. My lips cannot tell how I miss you. My heart cannot tell what to say. God only knows how I miss you in a home that is lonesome today.

Your last parting with
We would like to have heard,
And breathed in your ear
Our last parting word.
Only those who have lost are able
to tell

The pain in the heart at not saying
farewell.

Advice to the Lovelorn

BY BEATRICE FAIRBAX

World War produced some strange results. There are numerous females in all walks of life who are devoid of material interest. Some have been married, but their marriages have been so unhappy that they have decided to get married again. The Mary-Go-Round

ANALYST'S VIEW

I have been requested to give a brief analysis of Mary. "What makes him think," writes a young woman who is about to wed one of the "Mary-Go-Rounds". "That is a large order, but I'll try to do it."

A man is composed of his digestion, his conscience and reality. His digestion often "runs dead" due to the fighting position. His conscience sometimes has to be cracked up. His reality is self-stating until Mary takes it out of him.

WHEN AN ARMY COLUMN ADVANCES into enemy territory, mobile anti-aircraft units move with it. When enemy dive bombers or strafing planes appear, these Bofors guns go into action on the spot. With the infantry scatter and take cover, and blaze away at the enemy planes with rifles and machine guns, the Ack-Acks "shoot the works".

Less than one minute after the first warning, the gun is unsheltered from its tractor, and is hurling two shells a second at the hostile planes. Then, as soon as the danger is over, the gun limbers up again and moves forward with the column. Frequently too, this high velocity gun is called upon to knock out enemy tanks with armor piercing shells.

The artillery tractor which hauls the Bofors anti-aircraft gun over bomb-pocked roads wherever our troops are operating, is just one of more than 50 types of battle vehicles now being built by Ford of Canada's craftsmen. Rugged, sure-footed, and powered by the Ford V-8 engine, it is built to stand up under the toughest services and to get its gun where it is needed without fail.

On Sunday evening Bridge St. United Church will present Ruth Lane, harpist, at the regular service and in recital to include the church service. The promise to be a musical event of unusual interest. The open harp is not often heard in this district, and this will be Miss Lane's first.

In many centres of Ontario and in the United States, Miss Lane has already been acclaimed for her skillful technique of the harp and her charm, makes any program she plays a delightful experience. An interesting feature of the recital will be a short, informal talk on the modern harp.

The club will meet Miss Lane with special numbers.

Fear and Gloom Eat Hearts
Out of Germans in Norway

The German morale is collapsing in Norway, and the collapse is exposing itself in sudden, dramatic and quantity in the loss of the following information supplied from official Norwegian sources.

Dwindling German Morale

(From the Royal Norwegian Information Service, Washington, D.C.)

German troops stationed in the north of Norway are not having a very good time of it, according to a report made this week by a Norwegian soldier who had just arrived in London to volunteer for military service. The weather, the food, the hostile attitude of Norwegians, the long separation from home and family, and even mosquitoes combine to make life miserable. The top of it, the crafty "Laplanders" have traditional charity and superstitions to wear "kapitler" for the further discomfiture of the Germans.

At a point of all this, said the soldier, ordinary desertion and honesty are common occurrences among the Germans in Norway. In fact, the morale is so low that, he said, there are no more soldiers in German uniforms. The women even always hear the German soldiers in the night.

The soldier said that the German troops are now being sent to the front in small groups, and that they are being sent to the front in small groups, and that they are being sent to the front in small groups.

From Norwegians the Germans get only the "cold shoulder" treatment. They are never permitted to enter the homes of Norwegians, and they are never permitted to enter the homes of Norwegians.

For nine months of the year their conditions prevail in northern

regions of America. They in northern Norway, but they earned the respect of the Norwegians. They were given permission to stay in the homes of the Norwegians, and they were given permission to stay in the homes of the Norwegians.

'Secret' Arms of Nazis:
Symptoms Desperation

(From United States News Magazine)

Germany is trying to turn the tide of this war with the help of secret weapons. Great success with the device is claimed by the Nazis, but not admitted by the Allies.

Questions are raised as to the nature of these weapons, and as to whether they will give Germany a real chance to win the war.

The Nazis have three new secret weapons, with several variations, which are described by Winston Churchill as follows:

One is the new radio-directed homing missile, which is described by Winston Churchill as follows:

Another is the new radio-controlled guided torpedo, which is described by Winston Churchill as follows:

A third weapon is the "radio-controlled" bomb, which is described by Winston Churchill as follows:

Another new weapon, involving only concentrated use of the rocket principle, is the rocket gun. This little guided weapon has been reported to be the most effective of all weapons.

See weapons: A new torpedo for use by submarines against ships is reported to be one factor in the recent increase in sinkings by U-boats. The torpedo is said to be the most effective of all weapons.

Canada's chief battle school hardens her men for actual combat by simulating war conditions. These men advance through a smoke screen laid by mortars.

Commando tactics are part of the battle drill. This is the final action in stalking and killing an enemy sentry. In a flash, he claps a hand

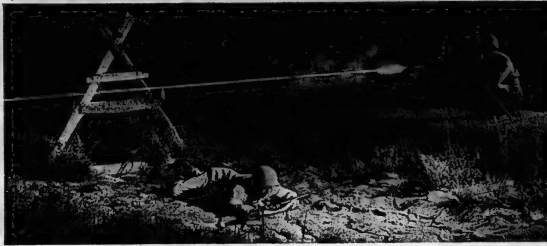

Training at school near Vancouver, B.C. are Corp. Jack Franco, Toronto, Corp. Bud Hubbard, Tilbury, Ont., and Corp. Maurice McGill, Corunna, Ontario.

Every kind of obstacle is met and overcome. Here the soldiers in training have succeeded in floating their 54-ton Bren gun carrier with logs and

are able to ford the river as though in an amphibious craft. Self-reliance and ingenuity are traits that are encouraged at the Vernon battle school.

Night training as well as day is carried out with live ammunition. Here a soldier learns to duck as the live tracer bullets pass over his head.

So, tempered by the fire and sound of live ammunition, the Canadian soldier knows the real thing long before he meets the enemy in combat.

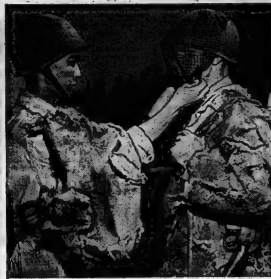

Still one of the toughest obstacles in warfare is barbed wire. And without benefit of gloves or special equipment our men learn how to handle it.

Crawling through a creek and under live fire from Bren guns, the soldier must learn to protect his gun and keep it in firing order at all times.

Coffee and doughnuts come as a welcome respite to men taking the battle course at Vernon, B.C. After battling barbed wire, mud and water, they need it.

Lance-Corporal Henry Wong adjusts the face fitting of Lieut. Howard MacAllister's sniper camouflage suit. Corp. Wong hopes to use one against the Japs.

Trainees learn to drop from a truck moving at 25 miles an hour through a smoke screen laid by carriers. They turn a complete somersault and land on their feet running. It's very easy, once you know how—they say.

A pineapple welcome awaits the enemy, through this small opening. With his left hand he holds a sandbag which he uses over hole to guard against blast.

Village fighting is an important part of the training. Here is an attack under way against an enemy-held house in the specially built village where this method of fighting, learned from Russians, is taught.

Mr. Alloway is associated with the management of the business as a director of the Oshawa Times-Telegraph, Ltd., and as a director of the Oshawa News-Journal and the Oshawa News-Journal Printing Co., Ltd.

Eisenhower Issues Message on First Anniversary of Landing

Allied Headquarters, Algiers, Nov. 24.—(AP)—Declaring that Germany "must defeat"—even if not yet "definitely"—is certain, Gen. Dwight D. Eisenhower today issued a message on the first anniversary of the day the Allies landed on the beaches of Normandy.

The Allied Commander-in-Chief in the Mediterranean, in his message, the anniversary of the North African landings, said that the battle was "not yet won" but that it was "not yet lost" and that the Allies were "not yet defeated" but that they were "not yet victorious."

The message, which was broadcast in English, French, Italian, Spanish, Russian, Greek, Portuguese, Chinese, Japanese, and German, was the longest ever broadcast by an Allied Commander-in-Chief.

Mr. Eisenhower said that the Allies were "not yet defeated" but that they were "not yet victorious."

W. H. MORTON, PUBLISHER

Churchill's Inspired Utterance

Prime Minister Churchill, whose speeches have been masterpieces of statement, imagination and judgment, spoke in characteristic vein of the "impending ruin" of Germany and warned that this was no time for dreaming "of a brave new world to come" but that "what has practical war work to do."

His opinion based on all the facts at his disposal is that the defeat of Nazi power could take place before 1944 and that the campaign of "next year" will be confined to the British and American armies. "I am less some happy event, occurs, on which we have no right to count."

He then gave his highest praise for the brilliant and valiant officers which have wrecked the German war machine and indicated the "mud" which may well prove fatal.

He advised as he spoke at the Lord Mayor's Banquet in London, that the time called for the straining of every nerve for the successful achievement of the Allied plans for crushing the enemy.

With the grace of the master orator he assured the guests that the British, American and Canadian armies have stood out in British and American history.

He said that the British and American forces in 1944 he said it was reasonable to assume "unless we make some grave strategic mistake."

He took occasion to reiterate the note of unconditional surrender as the only way to which the United Nations must listen.

He gave the assurance that the back of the U-boat menace has been broken and that the air war against Germany has been the most successful of the war.

He said that the British and American forces in 1944 he said it was reasonable to assume "unless we make some grave strategic mistake."

words and threats against Britain. Roosevelt as ever and full of egotism he said he could support and lead the German people and that "this fight for Germany has made me what I am."

Even while Hitler was talking German armies were trapped in two regions in Russia while the Russians were marching north to the borders of Rumania and Poland. Hitler could use it if he would to ascend the Red Star of Russia in the sky even he was trying to whip and lead the German people to the front lines.

His speech here all the marks of devastation on Hitler's part to try and preserve the home front.

He said that Germany will not collapse and that the result will be victory or annihilation. Such were his boasts in the face of the disasters which have hammered at his forces, and which will continue to pound him into a crushing catastrophe.

FAVORED TO WIN
Toronto, Nov. 10. (CP)—Ball
of H.M.C.S. York stand square

astride a football dilemma today. Their own championship hopes blasted beyond redemption, fifth-place sailors meet Toronto Balm Beach at Varsity Stadium tonight in the League's final scheduled game—a contest that holds the key to play-off destinies of Balm Beach and Toronto R.C.A.P. Hurricanes.

And that's the rub. All season traditional rivalry between air force and navy has been inflamed by "jockeying" campaign in which both sides indulged freely. Navy players frankly they don't want to see Hurricanes in the play-offs—but in the same breath they avow their determination to beat Balm Beach.

If they do beat Balm Beach—and

hods are 3-1 they won't. Hurricane will hold second position by one point and enter the sudden-death O.R.F.U. play-offs Saturday in Hamilton against Flying Wildcats who already have clinched first place. If Beasles win, Hurricane will be eliminated and Beasles will meet Wildcats for the Ontario title and the right to advance against the Quebec Rugby Union champion in the Nov. 20 Eastern final here.

Beasles trounced Navy 9-1 in their first meeting of the two teams but Coach Alex Ponton warns against overconfidence. The player he fears most is Royal Copeland, 18-year-old navy halfback who has been hailed as the brightest young star

Sampon who defied the unhappy precedent, Arthur Danahoe relaxed for a halcyon between rounds and the Canadian Amateur Boxing Association's Sonny Jones—then ranked as an easy points victory.

The young Irishman's trouble with Sonny in their eight-round contest at London's Queensberry Club united the two nations in the sixth round. He had a fringe of hair ached, I was been falling over his eyes and smothering a small forehead cut.

After the fight, a Canadian Amateur boxer floored Sonny for an eight-count. He punched him all over the ring in the eighth round.

Sonny, a veteran who put up some fine performances in the country before the war and recently returned as a Canadian Amateur, fought back like the old campaigner. He is and showed a little more of the best of the best was opposing one of the best welterweight in Britain.

Coch Read Threfall last night at Winnipeg attributed the poor showing of his R.C.A.P. Bombers in the Western RCAF game to the weather.

For the world title now held by the Chicago's Jackie Peterson, revealed little form that would suggest championship possibilities.

Intent on a comeback, the 35-year-old Kane wants a rematch with Peterson, hand-hitting was laid out knocked him out in just six seconds last June to take the world title as recognized by the New York State Athletic Commission and the International Board of Control.

Previous to the Reynolds bout, Kane kayped Johnny Summers of Edinburgh at Bristol in 30 seconds.

After the Board of Control and the Force sergeant physical training instructor since he ran into Peterson's line.

Reynolds, the ring-wise Canadian wanted few punches but his

Canadian Sp

defence was by no means perfect but in the sixth round of the eight-round affair his mouth and eye were cut slightly.

St. Rod McDonald of Edmonton, who won the 1943 British and Canadian Amateur middleweight boxing championship, lost out a referee's rotating vote to a former titleholder who sat six rounds at a charity match in London's Queensberry Club.

St. Rod McDonald kept race in the coaching department with St. R. Archambault, British Army Middleweight light two years ago, but in civilian clothing. The Canadian previously lost a decision in the same ring to Thomas, Amateur Association welterweight champion.

Art Snapshots

Actually the prospects of junior hockey in the Bay of Quinte district are exceedingly bright. The Ontario Hockey Association's "B" team, the "Burr" Horton 'A's, the Union Ice Nationals yesterday we agreed that the "Flyers" will have a "Junior B" squad and hope to be joined with Trenton and Belleville. It seems recently No. 8, Manag Depot was opened at the Trenton and Belleville. The "Flyers" youngsters enlisting from all parts of the Dominion, or a portion thereof, will receive their basic Air Force training at the Manag Depot. They will give the youthful Flyers a strong team, as some 800 are estimated there at present. However, it is noted that only which strengthen the calibre of district hockey and like it more interesting for the fans.

Art Black and Romeo Taylor, Trenton junior sports mentors, are anxious to get back into the hockey ring as fast as soon as the season opens, so all-in-all prospects look good for junior hockey in the Quinte area with Trenton, the Flyers and Belleville's two hopes.

Outstanding Artists to Feature
Tenth Season of Concert Assoc.

PATRICIA TRAVERS, VIOLINIST

A number of outstanding performers in the musical world are scheduled to perform in the city during the winter season under the auspices of the Belleville Community Concert Association. First among them on November 20, is Miss Patricia Travers, violinist, fifteen years old, who is no novice despite her youth. She has already an impressive number of appearances with major orchestras of Canada and the United States. The press has been lavish in their praise of Miss Travers' talent. The Chicago Daily Tribune said, "should rather bear her than many a prominent violinist of 34 or 40 or 54." The Christian Science Monitor said, "wonderfully characterized the performance of the youthful Patricia Travers. . . . No escape, audiences have another aspirant to the high concert honors." Another featured artist with the concert will be Kurt Baum, a Metropolitan Opera tenor who, since his recent debut, has been piling up notice that dent in popularity. Kurt Baum made his debut with the San Francisco Opera at which time he scored an immediate success. The New York Herald Tribune says, "The most valuable tenor that the Metropolitan has engaged in many seasons." The New York Times: "The second occasion was reserved for Kurt Baum. . . . the rousing reception warmly deserved was allotted him following his singing of the aria. . . . the company has found in Mr. Baum a dramatic tenor with a voice of beautiful timbre, absolutely clear in quality and used with exceptional warmth and accuracy."

Belleville may look forward to an unusual treat in the performance of Mornay's enchanting comedy, "The Marriage of Figaro" by the group of gifted songwriters the Nine O'Clock Opera Company whose first trans-continental tour was the sensation of the concert world. At their New York debut the press were high in their praise of the company. Certainly Belleville is fortunate in having secured for itself this good share of what the musical world has to offer. A series truly worthy to celebrate the tenth consecutive season of its concert association.

Plastics and Wood Replace Metal
In Toys for Christmas Trade

Judging from a tour of city department stores now dotted out in their pre-Christmas frenzy and surrounded by plastic toys imported from England, it is stated. Yes, the little kids will have their usual toys which have undergone practically no change in manufacture, with the possible exception of not being as numerous. The fully-loaded Moppy baby dolls, with blue eyes and dressed in the latest episode dresses, are still available. Not many will say "Mamma's" however. Doll carriages are made almost entirely of wood, as are cradles, scooters, trucks, fire engines, airplanes, ships and automobiles. Rag dolls appear to come in for the least change. The old-fashioned rag doll stuffed with straw is still available and still sells well. And so, despite restrictions and the fact that the familiar toys are made from different materials, the making of another happy Christmas seems assured for the kiddies.

ALSO SINGLE FLIGHTS
Some 40,000 sorties were flown during 1942 by aircraft of the Royal Canadian Air Force in the protection of troops.

BATTLES' BURN BURN
In the first three years of war 67 German and Italian warships were sunk or damaged by British submarines.

Legion Veterans Discuss Plans Of Reorganization

Officers toward the reorganization of the Belleville branch of the Canadian Legion was seen Wednesday night at the Conservative club rooms when a considerable number of veterans of the First Great War met to discuss plans for reorganizing the local branch.

Major C. M. Macdonald, district commander of Belleville, addressed the meeting giving a very interesting talk on Legion work in Canada and in England, and also on the service personnel who are working for adaptation to post-war civilian life.

MUNITIONS HEAD PLAYS BIG PART IN WAR PROGRAM

Hon. C. D. Howe Does Variety of Jobs in Addition to Heading Huge Department Spending Billions

By C. B. BLACKBURN (Ottawa Press Staff Writer)

To be predicting genius over a war-born department which will have produced fighting equipment valued at more than \$7,000,000,000 by the end of this fiscal year is not a feat to be proud of. But Hon. Charles Dewart, Minister of Munitions, carries this responsibility easily—more than easily—and at the same time for other important tasks.

Just recently he headed Canada's delegation to preliminary negotiations in London on post-war munitions control, a nature selection because he is the father of "Three-Canada Lines."

This society-bred, fatherly, born engineer from Massena, slipped quietly into the Canadian political picture in the general elections of 1935 when he won the Ontario Conservative seat of Port Arthur. Prime Minister Mackenzie King at once took him into the cabinet as minister of marine railways and canals, a department whose quickly organized into the national transportation department.

Original "T.C.A." in his office, after the department was set up to replace Canada's old coast guard, he was made minister of marine railways and canals, a department whose quickly organized into the national transportation department.

STORAGE BATTERIES ARE ESSENTIAL WAR TOOLS

Today our most important job is supplying batteries for the Navy, the Army, the Air Force, the military forces and war industries. Without a dependable source of power, which in many instances only a storage battery can supply, the mechanized might of our armed forces would be reduced to a mere group of men with primitive tools.

Low Med. Categories On R.R. Employed

Ottawa, Nov. 12.—(CP)—Employment of troops of lower medical categories on railway "dead-end" maintenance "is authorized under an order-in-council," the Canadian National Railways announced today. The order provides that those categories of medical grades lower than "Public Health 222222" are required to perform such work as that all orders given in connection with its performance shall be lawful orders given by the railway officer.

"Thus they remain under military law and discipline."

The order also provides that they remain entitled to pension in case of sickness or injury suffered while performing railway work.

The order authorizes the Minister of Defense and Labor to make financial arrangements "relative to railway employment of troops, including the payment of wages and allowances to the troops employed while on army pay."

It is pointed out that the amount of pay and allowances due to the troops employed on railway work will be paid to them.

Coal Mine Strike Nearing the End

Calgary, Nov. 12.—(CP)—The strike of Alberta and British Columbia coal miners appears to be near an end and may be ended in the pits after a 13-day strike, previous to which 50 per cent of the 1,000 miners had gone back to work.

The 1,000 men in the Crown Point mine voted almost unanimously in favour of resuming normal work, following the lead of 1,100 at Fernie and 1,000 at Coquitlam.

At Fernie, 1,000 miners decided to return to work after 13 days of strike.

The miners went on strike at midnight, October 31, following the agreement with powers given to a Coal Commission set up to lower wages.

The miners decided to go back to work on Monday, November 8, after a 13-day strike.

The commission, now with power to make a final decision, is expected to make a final decision in Edmonton today.

Failure of members of the 34th Battery R.C.A., to attend regular Reserve army training in the future will result in the cancellation of their status as members of the unit, it was announced by the offending parties, it has been announced by Captain Sward to the 34th, following the conviction of three unit members on a like charge in police court this week. "The boys had been continually absent from training and the charges against the offending parties will be the policy in the future", stated Captain Sward to The Ontario Intelligence on Friday afternoon. "These boys had been continually absent from attending regular drill periods and an example had to be set for the benefit of the Battery". He urged that all unit members be regular in their attendance. "It is impossible through intervention of duty or illness when official leave of absence is granted to be absent from

Col. J. W. Black, C.O. of the 1st Brigade stationed at Kingston and in charge of all Reserve Forces in Military District No. 2, was at the Armouettes for two days this week, during which time he met the following officers: Major A. G. Co. W. R. Hogar and Major A. Mowall of headquarters staff in Kingston, were also here on a tour

Donnan, Col. Ackerman of the 1st Airborne Army Auxiliary Staff, Peterborough, and Mrs. Donnan were honored guests.

Perhaps the highlight of the night came following a buffet luncheon served by Mrs. S. Johnson. On this occasion special presentations were made to distinguished members which added to the merriment of all and all in good clean fun. The presentations were made by Sergt.-Majors Harden and Jeffery and upon the unwrapping of each parcel laughter rent the air as each present was appropriate to the recipient in some way.

The stroke of midnight brought the show to a close when the occasion broke up with the National Air Force, all voting the Sergeants Ideal hosts.

It was with regret that Lieut. Col. Dorman announced the Argentinian Light Infantry was leaving the vicarage at the end of the month. At next month when this population non-commissioned officer will return home to England. His services have been most valuable to the Argilla, as Sergt.-Major Jeffery spent considerable time in his native England during the early part of the war. Last he was transferred to Canada by the British Entomological Bureau to continue certain experiments in parasite studies.

In reply Sergt.-Major Jeffery assured his fellow-contemporaries would miss Bellville and the many friends he had made during his sojourn on this side of the Atlantic. He will return to resume his duties in that necktie.

In full battle dress members of the C.W.S.F. lined up with Argyll Light Infantry classes this week for lectures and drills in the Bren gun under the direction of Capt. Kahlbacher. The divisions in the women's reserve army are apt pupils when it comes to learning the rudiments of the operation of modern weapons of warfare.

Promotions were announced and the ranks of the C.W.S.F. were when it was announced O.S.M. Mary Vose Smith had been promoted to the rank of a Lieutenant.

Other promotions included Sergeant L. Ashley to the rank of Company Sergeant Major; Cpl. I. Walden

retiring sergeant; Lt.-Col. M. H. Baker to corporal and Pls. H. Baker, H. Mott, B. Doolittle and J. Spencer to lance corporals. "C" gratia pass.

The slings of the trio, as they say by word and deed, are to reach peace and help build a and prosperous world. Their pose is to draw all countries into a pact on the basis of a and share alike.

Thus the main concern of world at large now is that—three have indeed reached stages of mutual trust and co-operation, and that nothing happen to disturb this unity. It would be lair to think that differences arise among them, but it isn't wise to believe that there's a chance of the big three making grade.

Come Virtually Isolated, Being Heavily Shelled

Third of Six Rail Lines Converging On Korosten Have Been Severed

SEVERE FIGHTING

By HENRY G. CANNERY
Associated Press Staff Writer
Moscow, Nov. 17 (AP)—Red Army troops closed in on Korosten, Ukraine, today, shelling the last important German base east of the Dnieper River in a furious assault, they threatened to end the 1943 offensive that has cost the Russians in this city of 150,000.

Russian forces pushed west from their beleaguered on the Both River north of Korosten, while other units struck beyond the Dnieper south of the city, breaking their wedge between the two main German positions. The town 15 miles east of the Both River, 17 miles north of the city.

The Russian push in the Ukraine, however, today seemed to have taken adverse weather and stiff German resistance, particularly in the Dnieper and Pripet areas, combined to edge toward Korosten, the rail junction controlling traffic on the Kiev-Lvov-Galicia and Kiev-Winnipeg railways.

Russian news agency dispatch from Moscow said the German holdout in Korosten had been further weakened by severe weather of the night and by continuing rain. The dispatch added that Korosten was being heavily shelled by Russian tanks and that the city was virtually isolated.

Axis Speculates

Cairo Setting For Tripartite Parley

London, Nov. 17 (AP)—Axis speculation over a possible conference between Prime Minister Churchill, President Roosevelt and Premier Stalin was heightened today by a dispatch from Cairo stating that Cairo might be a likely place for such a meeting.

"Axis-inspired rumors," the broadcast said, "are of the opinion that a meeting between Hitler, Stalin and Roosevelt will take place in the near future."

It then quoted "Chico Krieger," a German newspaper columnist, as saying that the German Home Office was being redecorated with new signs and in readiness for an "important conference."

The broadcast added, views the prospect of a meeting between the three Allied leaders "with great confidence and even greater results are expected than at Moscow."

"The Daily Mail," meanwhile, quoted the Ankara radio as saying that the German Home Office was being redecorated with new signs and in readiness for an "important conference."

The broadcast added, views the prospect of a meeting between the three Allied leaders "with great confidence and even greater results are expected than at Moscow."

NEWS COVERAGE

A. R. Ford, President Of Canadian Press Now on Tour of Australia

By J. K. HOLDSWORTH
(Canadian Press Correspondent)

Melbourne, Nov. 17 (AP)—A. R. Ford, editor of the London, Ont., Press and president of the Canadian Press, today reported the foreign news coverage provided for his readers by newspapers in Sydney and Melbourne.

Speaking at a dinner given by the Melbourne branch of the Australian Writers' Federation Association, Mr. Ford said that newspapers of the two cities had provided excellent news coverage in collecting foreign news.

Canadian newspapers also give a good world news, he said, but outside a few great newspapers in the United States the average Canadian newspaper gave very little world news, which was probably one reason why the Canadian news movement has been so successful.

Mr. Ford said that the news coverage of the world news has been so good that there should be a greater interest in the United States in the Canadian news coverage. He said that the Canadian news coverage was so good that there should be a greater interest in the United States in the Canadian news coverage.

WEATHER STALLS ALLIES

Navy League Cars for Sailors

The Navy League of Canada is a civilian organization and was established in 1917. It is supported and maintained by voluntary contributions. The extent of its work is widely known and especially after years of service among the sailors of the Navy and Merchant Navy.

Next week, November 21st to 27th inclusive, will be known as "Navy Week" when public attention will be focused on the Navy, the Merchant Navy and the work of The Navy League in relation to both.

An important phase of the Navy League activity is the Royal Canadian Sea Cadet Movement. Sea Cadet corps are located in almost every city in Canada and many towns. During the summer just ended, there were 13 sea cadet camps in operation from unit until September and many thousands of boys had the opportunity of spending two weeks in the open where they were taught navigation, sailing, seamanship and other nautical subjects. They were able to apply the knowledge gained in sea cadet barracks in a practical way.

At most camps the facilities were supplied by The Navy League while the training was under the supervision of the Royal Canadian Navy.

Another major activity of The Navy League is the operation of merchant seamen, naval ratings and junior officers of both services. There are now 110,000 men in the service of the newly initiated seamen.

At Halifax there is a complete club and dormitory which has few rivals in the Atlantic. The members of every Allied merchant fleet will be found there, as well as Americans, Norwegians, Swedes, Danes and sailors from every other fleet; dark skinned Russians and West Indian sailors, restless Chinese and calm, courteous Malays — men of all races, sexes and dare any nation to keep the "lifeline" open.

The Navy League Seamen's Club has a large auditorium where moving pictures are shown several times a week. Concerts are held each Sunday evening and very often good talent is found among the sailors themselves. The cafeteria is used by hundreds of sailors every day and large canteens in a popular meeting place all day long. Spacious reading and writing rooms are always crowded. There is a library, a canteen, a bar, a label where almost every tongue of the Allied nations is spoken.

An air conditioned theatre, where pictures of the management. Here, hundreds of sailors have been cared for but emergency cases and cases of serious illness are taken to the hospital. It is estimated that more than half a million people take a personal interest in the filling of duty bags which are distributed during the Christmas season to merchant seamen and naval ratings. Last year, 103,450 were filled by enthusiastic Navy League supporters and distributed and this year the number will probably reach a grand total of 150,000.

As far as possible, every sailor in the Canadian port will be in a duty bag between now and Christmas. In addition to all the other things that go into a sailor's duty bag, thousands of garments such as sweaters, socks, caps and helmets are contributed by the women of the home. Contributed by The Navy League. Hundreds of survivors' bundles have been made up and sent to the coast guard and will be sent to many hundreds of far lined vessels.

The need for knitted comforts like sweaters, socks, caps and helmets is so great that it is impossible for The Navy League to receive too many. The long cold watches of the North Atlantic call for the warmest of knit clothing and the long hours when men are out of duty call for a constant supply of reading material. The Navy League of Canada could not function if it did without the support of men and women, boys and girls who take a personal interest in the men of the sea.

Navy Week is observed every year as only a week of remembrance but also it affords an opportunity for The Navy League to tell of the gratitude of the men who do so much every day so little about.

Overrun Europe Stirring

It is not to be wondered at that Nazi-overrun Europe is becoming more and more as the Russian armies come closer and closer. An entire front does not move for-

ward at the same rate of speed because there is a more effective way of defeating an enemy than fighting straight forward and that is by swinging movements, attacking large and small, and then disposing of them more effectively than in battling straight ahead. But with the success of the pioneer movements the next front line is soon far ahead of the old one. Poland's frontier is not far away from the Russian forces of the Red Army and Rumania is only a little farther. In a country of such vast resources as Russia, such distances are small and they are well from the Russian standpoint for the smashing led offensives carry forward over very wide areas in more limited territory.

Canadians for instance understand long distances and can appreciate how a mere thirty, forty, fifty, or sixty miles may seem a very short distance.

Observant figures on important events as soon as the short intervening distances between the German front which is east of the boundaries of Poland and the Balkans and the Russian lines are covered. That time will not be short for the Russians have a rare skill in winter offensives.

Wireless for Trains

(Manchester Guardian)

After the successful tests recently made with a radio telephone apparatus which enabled the engine staff of a train to talk with a guard at the station, the railway authorities are now planning to run a train running between Hornsey and Hitchin with this apparatus as an experiment.

A company official tells that they have for some time realized what an advantage it would be for the engine staff and guard of a moving train to have this means of communicating with each other and with a station in passing.

Since the guard on a goods train is sometimes a quarter of a mile away from the engine the value of this new device is evident. The experimental train had 50 wagons. The apparatus may not come into full use till after the war.

Track of Savings

(Toronto Financial Post)

Dominion Life and Fountains Ltd. has adopted one method which has not only brought a clearer understanding to the worker of the financial position, but also added the means of enabling him to set aside a tidy nest egg for the post-war period.

To every employee the company gives a small booklet which can be slipped into the pocket. A simple explanation is given of the different deductions made from pay, while at the back is a five-year, month-to-month chart of the employee's savings. In Victoria Bona, War Savings Certificates and compulsory savings, as well as other financial contributions.

There is nothing elaborate about the booklet; it is a straight matter of fact record of the employee's savings. In the fact that the employee can see at a glance his savings record. It has been a powerful and useful factor in the period of time the worker is pleasantly surprised at the amount he has saved.

Doom of Germany

(St. Catharines Standard)

Expert opinion indicates the belief that the Russian winter army of more than 2,000,000 men is standing poised for the attack on Germany. If this is true it is the doom of Germany.

The Russian winter army of more than 2,000,000 men is standing poised for the attack on Germany. If this is true it is the doom of Germany.

With women dressing like the men,
Christians shopping daily for their men
The clerks may puzzle make advice:
"Why don't you give her socks and ties?"

(Well-Fe)

Though not as lavishly this year
The men will get a new coat, hat, and gloves.
More food upon it will appear
Than other nations get.

Thanksgiving

Thanks for the courage of them all
Who dare to fight and give
That freedom's banner shall not fall
On land or sea or sky.

TRAITOR RECAPTURED
Belfast, Northern Ireland, Nov. 22 — (CP) — Hugh McAteer, leader of the outlawed Irish Republican Army who escaped from Belfast prison last January while serving a 15-year term for treason, was recaptured Saturday.
A price of £2,000 had been placed

on the head of the National Army's Chief of Staff.

The last spectacular appearance of the rebel chieftain was on April 19, 1948, when he and three companions, heavily armed, took over a movie theatre in a Nationalist section of Belfast during the midst of a show and conducted services honoring "The men who have died in Ireland."

He issued a warning to the United States that American troops

Northern Ireland would inevitably become involved "in the resumption of hostilities between the Republic and Great Britain."

Patricia Travers Pursues Normal Life Despite Career As Violinist

Unspoiled, charming, literally "smiling over" her violin, Patricia Travers continues to pursue a perfectly normal life despite a career as a violinist in the American symphony. A shining example of all-aroundness, she is a competent, healthy, and successful violinist, a successful pianist, a successful actress, a successful singer, a successful writer, a successful mother, a successful wife, a successful friend, a successful neighbor, a successful citizen, a successful human being. She is a violinist, a pianist, an actress, a singer, a writer, a mother, a wife, a friend, a neighbor, a citizen, a human being. She is a violinist, a pianist, an actress, a singer, a writer, a mother, a wife, a friend, a neighbor, a citizen, a human being.

Third Year in High School
In Mrs. Travers' school work, she has been high school senior, a grade 11 student, and takes the city's orchestra. She is a violinist, a pianist, an actress, a singer, a writer, a mother, a wife, a friend, a neighbor, a citizen, a human being. By ROGER GREENE
Associated Press Staff Writer
London, Nov. 21 (AP)—Home Secretary Morrison, sharply headed by some members, today admitted that Oswald Mosley, British Fascist leader, was a "man who

stands for a doctrine almost universally detested in this country, but took full responsibility for Mosley's release on the grounds of ill health. As he spoke in a debate in the House of Commons, Mr. Morrison said that he had no doubt that Mosley was a man who stands for a doctrine almost universally detested in this country, but took full responsibility for Mosley's release on the grounds of ill health. Drop of Bombs Dropped on City From 1,000 Planes Asphalt on Pavements Boiling Say Eyewitnesses

By CLARENCE HILL, AP STAFF WRITER
London, Nov. 26 (AP)—The R.A.F. and R.C.A.F. hurled tons of destruction down on Berlin today Tuesday night for the second night in succession, seeking to knock out the German capital, most of it already destroyed.

The force and weight of bombs dropped probably approached what did not exceed the record of Monday when more than 1,000 tons were dropped by approximately 1,000 bombers, mostly all of them four-engine giants.

Concentrated attack.
"Concentrated and effective," was the Air Ministry's description of the second great attack on the second combined capital.

Despite some scattered successes, the R.A.F. lost only 30 planes in the attack, and simultaneous German losses on Western fronts were reported to be 30 in the comparable operation.

Some of the R.A.F. lost two and four night fighters before the dawn. The attack was chaotic from history's perspective.

The city yesterday was "well on fire," on the transfer. The Air Ministry announced that the R.A.F. had lost another "heavy" raid last night.

It was said that a number that was almost impossible to believe. The Air Ministry said that the R.A.F. had lost another "heavy" raid last night.

On the Swine-Corn Frontier,
Nov. 26 (AP)—A witness today said that Berlin was "burning with thousand fires" like a "vision of apocalypse."

The effect on the residents of Berlin was considered, the diplomat continued, but was not yet fully understood because "many are still stupefied by the catastrophe."

Which Makes You Weak, Cranky, Nervous?

If you, like so many women who suffer from cramps, headaches, aches, "irregularities," periods blues — are due to functional disturbances —

Start at once—take Lydia Pinkham's Vegetable Compound. This effective liquid not only helps monthly pain but also treads nervous feelings. This is because of its soothing effect on one of the most important organs.

Taken regularly—Lydia Pinkham's Compound helps build up resistance against such symptoms. Then, upon thousands reports help.

Stop stomach trouble. Made in U.S.A.

National Transportation Policy Advocated by Railway Brotherhoods

Ottawa, Nov. 24. (CP)—The Railway Brotherhoods have today requested the federal and provincial governments "make suitable regulations" at all forms of public transport with a view to increasing and accelerating a national transportation policy.

Such a policy can be realized only through co-operation of government authorities with those responsible

**Army Officer
Training For
Air Force Crew**

A new figure in the black uniform of a second lieutenant of the Canadian army, standing out in sharp contrast to the blue of the R.C.A.F., moved northward in the early morning hours of Thursday, Nov. 24, to the military grade training school at Camp Borden, where he will be training for the next few months.

The figure in black was a young man, a second lieutenant of the Canadian army, who had been transferred from the Canadian army to the R.C.A.F. to be trained as an air force crew member.

Wearing the single pipe of a second lieutenant, the young man in black was seen on city streets during their regular training.

Four-Mile Advance Results in Seizure of Mezzagroglio

5th Army Battles One Mile Forward Capturing Town Of Castelovo

12-MILE BRIDGEHEAD

(Associated Press From Correspondent, etc.)

Alger, Nov. 30. (AP)—The British 5th Army has cracked the Italian winter defense line of the Germans on the Adriatic coast of the Balkans by driving four miles forward in the Mezzagroglio area.

The 4th Armoured Division, which is fighting the Mezzagroglio, has captured the town of Castelovo, 12 miles from the town of Mezzagroglio.

Simultaneously United States troops of the Allied 5th Army fought their way forward one mile through the Mezzagroglio to capture the town of Castelovo northwest of Mezzagroglio.

VIEW PEACE TALK AS PROPAGANDA TO OFFSET PARLEY

Three Have Already Met Or at Present Meetings

MAY MEET CHIANG

By JOHN W. HIGHTOWER Associated Press Staff Writer

Washington, Nov. 30. (AP)—This of German peace overtures was viewed here today as indicating that Nazi leaders have launched a propaganda offensive to counter the expected peace overtures of Prime Minister Churchill.

I DON'T WANT TO CHEAT MY FAMILY

OF THE Big Health Factors

IN WHOLE-GRAIN QUAKER OATS

I know that no other cereal gives them such an abundance of protein—meat's main element. Growing children simply must have protein for normal growth and development. Whole-grain oatmeal is rich in protein, and it's the only cereal that's so rich in protein. It's the only cereal that's so rich in protein.

QUAKER OATS

The Quaker Oat Company of Canada Limited

THE MINISTER

The Minister said the government has no alternative other than the use of small metal bars or strips to be attached to the 1943 plates, but these could easily be removed, converted or attached to other cars.
